Title: Method for the production of naphthalic acid imide derivative

[Claim] (single claim)

A method for the production of a naphthalic acid imide derivative
represented by the general formula:

(wherein R_1 is alkyl group with a substituted part or allyl or aralkyl group
with or without a substituted part and R_2 is hydrogen atom or alkyl, allyl,
aralkyl or cycloalkyl group with or without a substituted part),
characterized by condensing a compound represented by the general formula:

(wherein R_1 has the definition given above) or an anhydride thereof with a
compound represented by the general formula:

R_2-NH_2 (wherein R_2 has the definition given above).
